RICHARD AKINMADE

Full-Stack Software Developer

richardakinmade3@gmail.com | 07040861012 | Igbo-Elerin, Ojo, Lagos

PROFILE

Full-stack developer with hands-on experience building and restructuring production web applications for clients, alongside independent architecture and technical-documentation work. Comfortable owning a codebase end to end, from system design through implementation, using TypeScript, Node.js, React/Next.js, Svelte/SvelteKit, and Python. Analytical approach grounded in a Mathematical Sciences background.

PROFESSIONAL EXPERIENCE

Freelance Frontend Developer - Game Web Application - NDA Client Engagement **Nov 2025 - Jan 2026**

- Joined a distributed team of five (product manager, team lead, two developers) to rebuild a buggy production web app.
- Reviewed and restructured the existing frontend architecture, then implemented redesigned pages across authentication, leaderboard, payments, and coin-store flows.
- Contributed to product/UI flow design for the application prototype, working from an existing Git/GitHub repository under delivery constraints.

Technical Architecture Consultant - Product Counterfeit-Verification Platform **Jul - Sep 2025**

- Defined the technical architecture for a Svelte/SvelteKit/Node.js platform with Supabase, PostgreSQL, and smart-contract components.
- Authored full technical documentation: database schema (7 tables with RLS policies), 30+ API endpoints, smart-contract functions, and a security model.
- Produced investor-facing product and roadmap documentation alongside the technical specification.

Independent Software Consultant - Multiple Engagements **2024 - 2026**

- Provided paid technical consultation on architecture, product direction, and development approach across confidential client engagements.

Web Development & IT Support Intern - ECKIG Global Services Limited **May 2022 - Nov 2022**

- Set up hosting, basic cPanel administration, staff email accounts, and Thunderbird/Outlook access; connected contact forms to company email.
- Built a custom WordPress theme, optimized pages and posts with Rank Math SEO, repaired broken links, and resolved a GA4 tracking issue.

Technical / Web Development - Pharmaceutical Consulting Company **2020 - 2021**

- Produced project flow-chart diagrams and translated project requirements into technical implementation flows.
- Worked with PHP, WordPress CMS, JavaScript, and Google SEO.

Field & Office Technical Support Intern - Teltwine Networks Solutions **Aug 2019 - Jan 2020**

- Carried out field network installations, including wireless radios, antenna alignment (panning), router installation, and network cabling.

Team Lead, Arc Welding & Fabrication - AB Building and Metal Construction Company **Sep 2016 - Jan 2019**

- Led arc welding and metal fabrication work for building and construction projects.

INDEPENDENT PROJECTS

FolderSynka: CLI file-synchronization and automation tool built with Bash and rsync for Linux/Termux; profile-based sync, service management, and diagnostics.

Multiplayer Game Engine: Real-time multiplayer platform (TypeScript, SvelteKit, Node.js, Socket.io, MongoDB) with matchmaking, reactive state architecture, and service-boundary design.

EDUCATION

Bachelor of Science (B.Sc.) in Mathematical Sciences **(awaiting clearance)**
Adekunle Ajasin University, Akungba-Akoko

COURSES & CERTIFICATIONS

Fundamentals of Digital Marketing - Google, 2019
Netpreneurship, Corporate Ethics & Human Relation Skills - MegaRich Consult & Networks Ltd., 2017

TECHNICAL SKILLS

Languages & Frameworks: TypeScript, JavaScript, Node.js, Svelte/SvelteKit, React, Next.js, PHP, Python
Backend & APIs: Express.js, REST, GraphQL, Socket.io, JWT, OAuth
Databases: PostgreSQL, MySQL, MongoDB, Redis, Supabase, Firebase
Infrastructure & Tooling: Git, GitHub, Docker, Linux, Bash, Vercel, Netlify, Vite, Vitest, Jest
Web3: Solidity, Hardhat, Ethers.js, smart-contract architecture
IT Support: Hardware/software troubleshooting, Windows, macOS, Linux, TCP/IP, LAN/WAN
Construction & Fabrication: Arc welding, metal fabrication, basic residential electrical wiring, and painting
Field Network Installation: Wireless radio installation, antenna alignment (panning), router installation, and network cabling

PERSONAL PROFILE

Nationality: Nigerian | **Languages:** English, Yoruba
